Sugrev, Nela, and Vendigo 300 Notes: - Don't forget to rob the objects they leave (small shiny thugi on the ground), it can be a powerful weapon or accessory. - Meonektons can only become extinct inside the final lair, as it is impossible to kill all those 65.535 people during the game. - Summoned dreds also count your process. - If the last people don't lay eggs and the type of monster does not spawn either, there is a certain encounter that you haven't already fought with that monster. The examples worth noting are Arkangeli, Sugrev and Imagination.
